

Head Office Solution

Emperium POS HO allows one single place for access from anywhere.

Centrally manage every aspect of the business, stock, pricing, replenishment, employees, reporting and more.

The head office is capable of integrating with department stores such as Selfridges, House of Fraser and Debenhams to manage virtual concession stores, third-party warehousing systems as well as our own warehousing and picking system.

Integrate with ecommerce websites to leverage our click and collect functions with automatic stock transfers where required. Further integrations are available and custom integration or development to particular requirements can be discussed.

High Performance Software For High Performers

Emperium Head Office is designed to meet the needs of the business with multiple stores and locations.

Comprehensive and rich in features and functionality with each product configured to the customer needs.

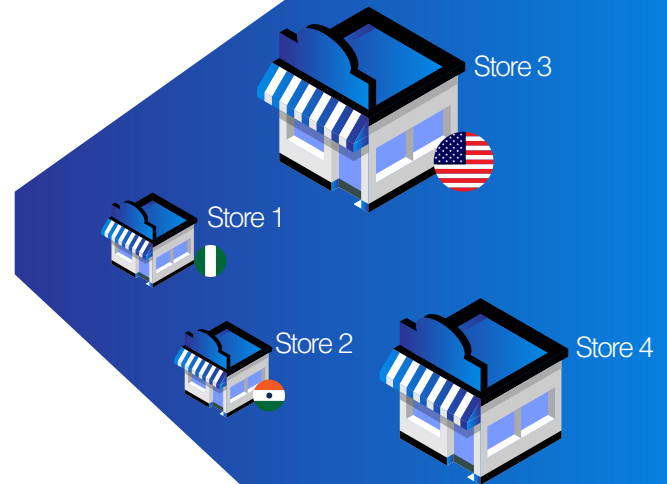

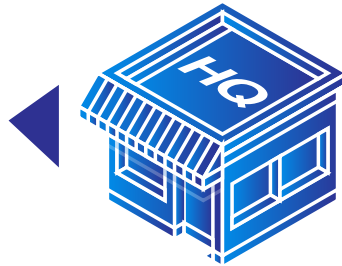

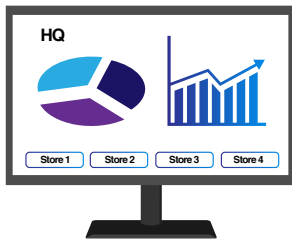

The solution is scalable to manage a larger business with multi-currency and multi-language abilities for worldwide use.

Centralised system

Emperium POS HO is a single point of management for the entire business.

Store groups | Stores | Currencies | Tax regions
Stock levels | Employees | Reporting

Integrations

Emperium has been designed to get the most out of tools from powerful partners.
